### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 line above the last line, "control signal representing said a " has been changed to -- control signal representing said --.

Claim 16 line above the last line, "control signal representing said a predistortion" has been changed to -- control signal representing said predistortion --.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patent # 6,774,834 B2 does not teach nor render obvious a predistortion control device that has, in combination with other limitations, a predistortion function selector device connected with a selector input to the cross-correlator output and with a selector output to the predistortion control output, said predistortion function selector device being arranged to compare the measured cross-correlation with a cross-correlation model stored in a memory and determining on the basis of said comparison a suitable predistortion function and presenting a predistortion control signal at said selector output said predistortion control signal representing said predistortion function; nor does it have a predistortion control method that has the steps of comparing the measured

cross-correlation value with a cross-correlation model; determining a suitable predistortion function from said comparing step a suitable predistortion function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents # 6,774,834 B2, # 6,141,390, # 6,600,792 B2, # 6,998,909 B1, # 7,035,345 B2 and # 2007/0069813 contain some limitations of the claimed invention.
